PROFESSIONAL SUMMARY

Computer Engineering undergraduate with 2 years of experience in cybersecurity pre-sales and technical security assessments, plus current experience in a regulated banking risk environment. Skilled in analyzing client security needs, mapping risks to tailored solutions, preparing technical proposals, and communicating cybersecurity value to stakeholders. Background covers network security, vulnerability concepts, firewall, EDR, Zero Trust, cloud security fundamentals, IT governance, NIST CSF, internal controls, and regulatory compliance. Targeting junior roles in Cybersecurity, Cyber Risk, IT Risk, Security Governance, or SOC fundamentals.

CORE CYBERSECURITY SKILLS

Cybersecurity: Cyber risk analysis, security requirements assessment, vulnerability concepts, OWASP Top 10, network security, firewall, EDR, Zero Trust, cloud security fundamentals, data protection

Governance, Risk and Compliance: NIST Cybersecurity Framework, IT governance fundamentals, internal controls, regulatory compliance, risk reporting, policy monitoring, control documentation

Infrastructure and Systems: Windows, Linux, IPv4 networking, troubleshooting, backup routines, data integrity, corporate IT support

Business and Communication: Technical proposals, security solution demonstrations, stakeholder communication, consultative selling, documentation, client-facing presentations

PROFESSIONAL EXPERIENCE

Santander Bank | Sao Paulo, Brazil | Investment Risk Intern | Apr 2025 - Present

- Support analysis and monitoring of risk indicators in a regulated banking environment, reinforcing control, governance, and compliance practices.
- Prepare periodic risk reports for decision-making, risk follow-up, and management visibility.
- Monitor adherence to policies, investment guidelines, and regulatory requirements.
- Apply structured documentation, analytical review, and stakeholder communication to support risk management activities.

Conversys IT Solutions | Sao Paulo, Brazil | Cybersecurity Pre-Sales | May 2023 - Apr 2025

- Conducted technical discovery with clients to understand security needs, risks, and business requirements before recommending cybersecurity solutions.
- Prepared technical and commercial proposals defining solution scope, architecture, benefits, and implementation considerations.
- Delivered product demonstrations for cybersecurity technologies, explaining features, use cases, and competitive differentiators to prospects.
- Supported consultative discussions involving firewall, EDR, Zero Trust, network security, vulnerability concepts, and cloud security fundamentals.
- Translated technical security topics into clear business language for sales teams, clients, and decision-makers.

MGA Consultores | Sao Bernardo do Campo, Brazil | IT Assistant | May 2022 - Oct 2022

- Provided help desk support for hardware, software, and user issues in corporate environments.
- Supported network infrastructure, device maintenance, and basic troubleshooting.
- Administered backup routines to preserve data availability, integrity, and recoverability.
- Contributed to internal IT operations, continuity, and security hygiene.

EDUCATION

B.Sc. in Computer Engineering | FESA - Faculdade Engenheiro Salvador Arena | Expected Dec 2027

Technical Degree in Mechatronics | ETEC Lauro Gomes | Completed Dec 2021

Electrical and Electronics Maintenance Technician | SENAI Almirante Tamandare | Completed Dec 2021

CERTIFICATIONS AND COURSES

Fortinet NSE 1, NSE 2 and NSE 3 Security Associate | Cisco CyberOps Associate | Cloud Computing: Fundamentals, Administration and Architecture - FIAP | Advanced English - AEC Idiomas

LANGUAGES

Portuguese - Native | English - Advanced
